Home Technology Specialists of America Adds Pakedge to its Roster of Vendors

CHESTER SPRINGS, Pa.—January 2, 2012—The Home Technology Specialists of America (HTSA) today announced the addition of Pakedge Device & Software, Inc. to its roster of vendors. Pakedge Device & Software creates innovative networking products for people who demand performance, features, and reliability. Their products use the most advanced wireless and networking technology and are designed for professionals to install and consumers to enjoy.

“The addition of Pakedge is an important partnership to each of this organization’s members,” Bob Hana, Managing Director of HTSA says. “With the need for more robust home networks growing as every key element of our home entertainment solutions continues to integrate networking capabilities, having a partner like Pakedge will enable our members to address this demand for higher performance, more features with great reliability as they integrate networks into their clients’ homes”.

Victor Pak, President and CEO for Pakedge said, “We are pleased to offer Pakedge’s high performance home networking solutions through the elite members of HTSA across the United States. With our custom packages, excellent support and performance, we are confident that the HTSA members will be able to provide their clients with the best networks possible in their homes through the use of Pakedge technology.”

For more information about HTSA, contact Bob Hana at (610) 363 -9055, (847) 924-6271 (cell)

ABOUT HOME TECHNOLOGY SPECIALISTS OF AMERICA

Home Technology Specialists of America (HTSA) is a national association of electronics experts who service the home and business. HTSA's members are located in 30 states from coast to coast and each location is staffed with experts who design and install high-end audio, video, automation, lighting, and climate systems for a discriminating clientele. HTSA is supported by 60 dealer members, nearly 100 store fronts, more than 400 installers and another 400 sales personnel in the field. The impeccable work of HTSA members is affirmed through references and endorsements from designers, architects, builders and clientele, as well as partnerships with real estate developers and electronics manufacturers who recognize their commitment to quality. Visit www.htsa.com for more information. You can also find us at HDLiving.com or subscribe to our [YouTube channel](#), and follow HTSA on [Twitter](#) and on [Facebook](#).

ABOUT PAKEDGE

Founded in 2003, Pakedge Devices & Software was created to meet the demand for high-performance home computer networking products. Before our company was founded, computer networking products for the home were compromised, unreliable, and lacked the "right" features. Pakedge Device & Software delivers the ultimate wireless and networking products for the uncompromising home owner. Pakedge Device & Software creates innovative networking products for people who demand performance, features, and reliability. Our products use the most advanced wireless and networking technology. They are designed for professionals to install and consumers to enjoy. For more information and system specifications, visit www.pakedge.com.
